

10.) Describe the conditions required to cause a tropical storm:
 Source of warm moist air

Time of year

Winds

Coriolis effect

11.) Describe the characteristics of cyclones:

Winds

Rainfall

Storm surge

Flooding

12.) Effects of tropical cyclones.

PRIMARY EFFECTS	SECONDARY EFFECTS

13.) Arid Environments
 Explain a rain-shadow

Explain why little rain falls in the middle of continents

Explain why little rain falls around the tropics

14.) Causes of drought

HYDROLOGICAL	METEOROLOGICAL

15.) Hurricane Sandy

Causes

Effects

responses

16.) Typhoon Haiyan

Causes

Effects

responses

17.) Californian Drought

Causes

Effects

responses

18.) Ethiopian Drought

Causes

Effects

responses
